

VISHAL SHARMA

+353899713065 ◊ Cork, Ireland ◊ vishalsharma01386@gmail.com ◊ [LinkedIn](#)

Backend Engineer ◊ MSc Computing Science, UCC

PROFILE

Backend Engineer with 3+ years of experience building and scaling high-throughput distributed systems (100k+ daily transactions). Specialized in Java, Spring Boot, and AWS, with proven impact in reducing API latency (10s → sub-1s), cutting incidents by 95%, and optimizing cloud costs. Eligible to work in Ireland (no immediate sponsorship required). Currently pursuing MSc at University College Cork and based in Ireland.

EXPERIENCE

Locus.sh (Acquired by Ingka/IKEA)

Bengaluru, India

SDE-2 Backend

Jan 2025 – Aug 2025

Tech: Java, Spring Boot, RESTful APIs, AWS (EC2, RDS, Lambda), MySQL, Distributed Systems

- Led architectural redesign of a core workflow from asynchronous DB-heavy flows to stateless synchronous services, reducing RDS costs by **\$29K/year** and improving reliability.
- Enhanced API performance by reducing **P99 latency from 10s to 990ms** through query optimization, bottleneck analysis, and restructuring critical code paths.
- Reduced production incidents by **95%** (200 to <10 alerts) by improving monitoring, alerting strategy, and release practices.
- Owned CI/CD pipelines (GitHub Actions) supporting weekly releases, reducing deployment failures by **60%** and decreasing rollback frequency.
- Strengthened code review standards and mentored **4** junior engineers, reducing avoidable regressions and improving backend development velocity.

SDE-1 Backend

May 2023 – Dec 2024

Tech: Java, Spring, MySQL, Security, Distributed Systems

- Designed SMS-trigger system handling **80,000+ messages/day** for real-time order status updates.
- Strengthened Dispatch Wave Framework automating **300k+ orders/day** for fleet optimization.
- Improved order upload scalability by **50%**, reducing median latency by 4 seconds.
- Contributed to building multi-leg logistics order tracking system contributing to **\$300K+ ARR**.
- Integrated rider tracking with dynamic geofence visualization, reducing rider cancellations by **18%**.

Software Engineering Intern

May 2022 – Apr 2023

Tech: Java, Spring Boot, MySQL

- Contributed to backend feature development and bug fixes in high-throughput logistics systems handling **100k+ daily transactions**.
- Secured APK deployments using **SHA256** digital signature implementation.

TECHNICAL SKILLS

Languages Java, Python, TypeScript

Frameworks Spring Boot, Node.js, Express

Databases MySQL, AWS Aurora

Cloud AWS (EC2, RDS, Lambda), CI/CD (GitHub Actions), Docker, Kubernetes

Tools Git, Maven, NewRelic, JUnit

Concepts Distributed Systems, RESTful APIs, Microservices, System Design, Performance Optimization

EDUCATION

University College Cork (UCC)

MSc in Computing Science, Percentage: 74%

Cork, Ireland

Sept 2025 – Sept 2026

Vellore Institute of Technology (VIT)

Bachelor of Technology in Information Technology, CGPA: 8.45/10

Vellore, India

July 2019 – Aug 2023
